

**DIXIE TIP
CONCEPT REPORT APPLICATION
FY 2015 (Due November 6, 2013)**

PROJECT INFORMATION

- 1) TITLE: Purgatory Road

- 2) DESCRIPTION: Design and Construct Purgatory Rd. Connects Washington Dam Rd. To Landfill Rd. Roughly 2.5 miles.

- 3) SPONSOR: Washington City

- 4) COST ESTIMATE: \$ 4.25 Million

- 5) FUNDS APPLYING FOR (check all that apply):
 St. George Urban STP, SPR
FTA 5307, 5309, 5310, or 5311

- 6) PROJECT MANAGEMENT
 - a. Contact Person: Mike D Shaw
 - b. Phone Number: 435-656-6317
 - c. Mobile Phone: 435-680-1623
 - d. Fax Number: 435-656-6375
 - e. E-mail Address: mshaw@washingtontcity.org

- 7) INCLUSION IN LONG-RANGE PLAN (LRP)
 - a. LRP project number:
 - b. Regional Significance: Provide additional access points across the Virgin River and additional access to the Southern Corridor, also add another option to the landfill.

Dixie Transportation Planning Office

RESPOND TO THE FOLLOWING FOR ANY PROJECT:

- A. Describe how project is consistent with local plans: It is part of the Washington City Transportation Master Plan.
- B. Describe purpose and need of the project: The necessity of this project is to provide for projected increase in traffic generated by increased growth in Washington City and Hurricane City.
- C. What are the physical aspects of this project?
 - (Road: Facility Design, ADT, LOS, Functional Class, Design Speed, Accident Rate)
 - (Transit: Rolling Stock Specification, Facility Design, etc.)
 - (Pedestrian./Bicycle/Trail: Facility Design, usage)
 - (Park & Ride): Facility Design, usage): Major Collector 66' ROW
- D. How will facility, system, or equipment be maintained when completed and open for service: All Maintenance will be provided by Washington City.
- E. Is there any right-of-way or real estate purchase required? Any property owner agreements, partnering opportunities, or in-kind service transactions possible: Right of way will need to be acquired. Washington City is currently in the process of acquiring the private bridge that spans the Virgin River.
- F. Is there any utility work or impacts? Indicate who will do the work and who will pay for it: Any utility work will be done by Washington City.
- G. To what extent will access management be improved by this project: This project falls under Washington City access management plan by controlling conflict points.
- H. To what extent will this project improve transportation system Safety: This project will improve the traffic movement and flows that are expected with the planned growth, provide a second River crossing and another access for the Southern Parkway, Washington Dam Road and Washington County Fairgrounds.
- I. Please provide plans, sketches, aerials or designs with the concept report to assist in the evaluation of this project.
- J. Is this project New, an Improvement, Expansion, or Rehabilitation to an existing system: This is new construction.
- K. Describe how this project will improve the existing transportation system as it relates to the following:
 - a. Mobility: This project will improve mobility by adding additional access
 - b. Inter-connectivity: This project will improve alternate access for the city
 - c. Circulation: This project is vital to the circulation for traffic in the region.
 - d. Facility Usage: As growth continues the demand for this project will increase
 - e. Level of Service: Anticipated to Increase
 - f. Environment: A environmental impact study will have to be completed.
